Otto DeCamp, Dr. R. K. Smith, Herman Crow, John F. Genso, Esther
Swallen Fitch, Dr. Hugh Fitch, Ella Janet Sharrocks.

A birdie told us that the above party was called for and arranged by Mrs
Sharrocks and Ella Janet Sharrocks-- now Mrs. Gordon W. Avison.

The Raymond Martins--- (She was Marian Sharrocks) 4563 Bridle Trail, Santa Rosa
California are leaving today, October 3rd., by plane for New York, where they
will visit with their families. There are some grandchildren to be interviewed
for the first time by their fond grandparents.

I, Gordon Avison, wish you all could see our garden at this time, especially for
the purpose of eyeing our little perssimon tree, which is loaded this year. That
would make all of your mouths water, as mine does daily.

Do happen to know what a " Rock Hound" is? He's a fellow, or she's a gal who is
crazy about rocks of all kinds. Some two years ago, Ella Avison persuaded Gordon
to take a course in "Gem Cutting" at the Santa Rosa Junior College and what
he has had ever since-- he's turning out some beautiful jewelry now-- necklaces,
necklaces, bracelets, bobby pins, rings, tie clasps, ear rings etc. etc. etc.
Everywhere Ella and Gordon go, they look for interesting rocks-- that's what
cuts them up to discover whether or not they are suitable for his hobby. Gordon
is still going to "Gem Cutting" School even though he has equipment of his own
in a special room, back of the garage. Some of you older codgers might find
and worthwhile time spent in such a hobby. There are also many "Rock
Clubs" which promote friendship and good fellowship
